

GARDEN TOUR

*The Farm of Jenks Farmer*

*Beech Island, SC*

June 8, 2016

An end of the fiscal year treat! Jenks Farmer has invited us to come tour his farm when his plants are in bloom. The farm is an organic lily farm in Beech Island, SC. Beautiful flowers, cool old buildings and barns, animals, art, organic farm practices and interesting people are all waiting for us. We will arrive at his farm about 10:00 am and go for a tour, shop and eat lunch there. If folks are interested we will then go to nearby Redcliffe Plantation, a state historic site and park for a tour before we head home. Redcliffe, a Greek Revival style house, was built in 1857 by James Henry Beech who was a US Congressman and Senator and Governor of South Carolina.

We need to get an idea of how many people would like to attend so we can organize the transportation, tours, and lunch. Please fill out the information below and return to Linda Hughes or Becki Trickey by March 1, 2017.
